Aceh Barat

Fresh graduate in Informatics from Syiah Kuala University with a strong interest in software engineering and building scalable digital systems. Experienced in developing web and mobile applications through multiple real-world projects and recognized with 5 national-level achievements in technology, data science, and digital innovation competitions. Skilled in full-stack development, system design, and practical problem solving.

Work Experiences

PT Paripurna Sentosa Digital - Aceh Barat, Indonesia

Oct 2025 - Present

Software Developer

- Developed and maintained Hospital Information System (SIMRS) applications used by 5+ hospitals across Aceh, delivering new features and enhancements for operational and administrative workflows
- Provided application maintenance, troubleshooting, and bug fixing, ensuring system reliability and resolving operational issues reported by hospital users.

Physics Department, USK - Banda Aceh, Indonesia

Jun 2025 - Sep 2025

Full-Stack Web Developer

- Developed a full-stack web platform for the Material and Energy Laboratory of the Physics Department at Universitas Syiah Kuala.
- Built features for online equipment lending, visitor scheduling, and laboratory service requests

Education

Universitas Syiah Kuala - Banda Aceh

Jun 2022 - May 2026

Bachelor of Informatics, 3.82/4.00

- Honors : Cumlaude
- Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming, Database Systems, Software Engineering, Web Programming, Artificial Intelligence, Computer Networks.

Organisational Experience

BEM Faculty of Mathematics and Natural Sciences

Jan 2021 - Aug 2021

Human Resource Development Staff

- Led the organizing committee in planning and executing a faculty-level sports tournament, overseeing event preparation, team coordination, and implementation.
- Coordinated the faculty futsal team, including member recruitment, team communication, and participation in inter-faculty competitions.
- Assisted in organizing student development programs and activities aimed at enhancing leadership, teamwork, and organizational skills among students.

Achievements & Skills

- **1st Place LOGIKA UI 2025 Data Science Competition Universitas Indonesia** (2025): Outperformed 94 competing teams to claim 1st place among 10 national finalists
- **Bronze Medal LIDM (Lomba Inovasi Digital Mahasiswa) by Kemdiktisaintek** (2025): Awarded Bronze Medal after placing among the top 3 teams from 20 finalists, selected from over 200 submissions nationwide.
- **2nd Place Hack4Health Hackathon (Sandbox 2.0)** (2025): Secured 2nd place among 10 finalist teams by developing innovative technology solutions for healthcare challenges
- **3rd Place E-Commerce Design Category, The 11th UTU Awards** (2025): Ranked 3rd among more than 50 submitted projects in the national E-Commerce Design competition.
- **Top 10 Finalist AI x Creativity Hackathon, Alibaba Cloud** (2025): Selected as one of the top 10 finalists in a highly competitive national hybrid hackathon
- **Hard Skills:** Software Engineering, Mobile Application Development, Web Development, Object-Oriented Programming, Data Structures & Algorithms, REST API Development, Requirements Analysis, System Design
- **Soft Skills:** Leadership, Project Management, Communication, Problem Solving, Analytical Thinking, Teamwork
- **Languages:** Indonesian (Native), English (Professional Working Proficiency)
